

Methods of Teaching

Dear Future Instructor,

Congratulations on your decision of embarking on a new endeavor of becoming an instructor! You are very wise to share your expertise with others in this growing field. Teaching can take your career to the next level and can be a very rewarding experience for both the student and instructor. I am offering a Methods of Teaching course that is designed to prepare you beyond state board because you will be able to run your own classroom with confidence.

My educational background includes a Master's degree in education as well as 10 years of educational experience. Not only did I teach in the public school system, I am also a licensed cosmetologist and salon owner. I will teach you how to prepare and implement lively and memorable lessons for your students. I look forward to meeting with you and sharing my love for this industry.
